Dear Mr. Van Rafelghem:

OFFICE OF PETITIONS

Please find a copy of U.S. Patent Application 09/930,288 entitled "METHODS AND SYSTEMS FOR INTERFACING WIRED/WIRELESS HYBRID SYSTEMS". The Application includes a specification having claims and drawings. Furthermore, a Declaration is enclosed.

Please carefully review the draft Application for technical accuracy and completeness. Also, if you are aware of any prior art (patents, publications or public use, offers for sale or sales) not discussed to date that is material to the Application, please inform us so that we can present this information to the Patent Office for consideration.

Because your name must be on the subject Application, we would like you to review the Application and other documents that we have given you and to execute them. As you know, by signing the standard Avtec Employee Confidentiality and Inventions Disclosure Agreement, you agreed to execute patent applications and other related legal documents and to assist us, at our request and expense, in any proper manner in obtaining and enforcing our patents. We expect you to honor your Agreement.

While we trust that you will honor your commitments and execute the documents, if you are still unwilling to sign them, please indicate your decision by signing this letter and returning it to me so that we will have a written record that we can provide to the United States Patent and Trademark Office to explain why your signature does not appear on this Application.
